

Herefordshire Computing Support

It's not all about the technology, it's what you do with it that makes the difference.

Technology can brilliantly support teaching and learning, but the countless options can be confusing. When you're investing heavily in IT you want to know that you've chosen the right products, that your staff and pupils can use them fully, and that your pupils are safe online. Entrust's team of experienced consultants can help you to unlock the full potential of your IT investment and help you to provide a safe environment in which your children can learn.

We provide training and consultancy to:

- Boost your staff members' confidence in using new technologies
- Make sure you're getting the most from your existing technology
- Help you to implement new initiatives, such as deploying iPads or digital education platforms
- Support the development and implementation of your technology strategy
- Provide training, advice, and guidance regarding online safety.

Online Safety Event - 1 February 2022

Join our online safety event to gain a flavour for the type of support we can offer you. With help from expert speakers, we will demystify and inform of the risks that young people and schools may face in this digital age.

Learn more and book your **FREE** place by clicking [here](#).

Meet the Team - 17 March 2022

Our Professional Services Team would love the opportunity to meet you to understand more about your local needs. We'd also like the opportunity to tell you everything about the team and the types of support we can provide to you around online safety, your computing curriculum, and your technology strategy.

Join us in the morning at 8.30am by clicking [here](#) or alternatively in the afternoon at 4pm by clicking [here](#).

Entrust has a thriving consultancy team who will help you create a well-developed and up-to-date technology strategy to make the best use of your available resources for learning and teaching. Our service enables you to draw on support from highly regarded, enthusiastic and skilled consultants. Their work is known nationally and internationally but most importantly, they just "get it" and will become that critical friend you can rely on.

Vikki Bott

I'm a mum, teacher and school governor and I mostly deliver online safety support to educational establishments. I've gained many online safety awards such as EPICT assessor and 360 degree safe e-safety mark assessor status. I'm also an Apple Education Trainer and have delivered and supported many schools in establishing a vision for the use of the iPad.

Sharon Cufflin

I'm a mum, teacher, school governor, keen baker and I'm passionate about the use of technology to support learning. My areas of expertise are the computing curriculum, leadership of ICT, the iPad, eSafety and a wide range of curriculum software. I have also trained as a Computing Master Teacher.
